Subject: Hills and Fleurieu Landscape Board response to Biodiversity Act Discussion Paper

[redacted]

OFFICIAL

Hello,

In addition to the collective Landscape Board submission to the Biodiversity Act Discussion Paper, the Hills and Fleurieu Landscape Board also wishes to note that any efforts to conserve biodiversity in South Australia will be undermined without adequate and continuing investment in fundamental biodiversity and taxonomic knowledge – such as that which currently occurs through the South Australian Museum.

Regards,

Michael Garrod
General Manager
Hills and Fleurieu Landscape Board
