

South Australian Skills Plan

Concept for engagement | November 2022

Government of South Australia

Department for Education

SKILLS PLAN

To deliver our vision and respond to feedback the skills plan will:

- Profile the current and future state skills needs
- Identify key skills priorities for South Australia
- Outline a roadmap for responses in the short, medium and long term to support skilled people, a simplified and seamless system, and contribute to a successful economy
- Identify partners and leadership for solutions (e.g. government, industry, training providers).

'We face a generational economic question which can only have a generational education answer'

Peter Malinauskas, Premier of South Australia

SKILLED PEOPLE

An inspiring and valued experience for learners and industry

- Meaningful and relevant user experience
- Providing inclusive access to high quality training
- Stakeholders collaborate to improve outcomes
- Promotion of VET as a valuable and valued pathway

SKILLS AND INDUSTRY LABS

Connect careers advice, training providers, industry and learners

STRENGTHENED NARRATIVE

Engage, influence, promote and communicate to continue changing the perceptions of VET

SINGLE USER PORTAL

Simple, personalised navigation of skills, training and careers ecosystem

HOLISTIC SUPPORT

Portfolio of services for learners and industry when and where it is needed

SUCCESSFUL ECONOMY

Generating economic impact with positive flow-on effects for society

- Data-driven, evidence-based planning and forecasting
- A skilled workforce that supports current and emerging economic opportunities
- Equipping businesses and people with the skills they need to innovate, grow and succeed

COLLABORATIVE AND EVIDENCE BASED PLANNING

Planning approach is long term, collaborative and driven by data and insights

MEASURES ALIGNED TO ECONOMIC SUCCESS

Clear KPIs and success measures to drive and sustain economic growth

PARTNERSHIPS TO MEET CUSTOMER NEEDS

Agencies work together, with customer needs driving partnerships and collaboration

PLACE BASED AND COMMUNITY SKILLS STRATEGIES

Designed in partnership with stakeholders to meet local needs and improve outcomes

SEAMLESS SYSTEM

A future focussed and responsive skills ecosystem

- Responsive products and services, designed in partnership with industry and providers
- Quality & adaptable providers – TAFE SA and non-government
- Simple, consistent and transparent funding

SYSTEM STEWARDSHIP

Sector development and interventions align to priorities and need

ECOSYSTEM DEVELOPMENT

Innovative and high-quality products, services and providers connected to industry and student need

QUALITY OUTCOMES

Simplified and streamlined funding model driving quality outcomes

TEST, TRIAL & INNOVATE

Co-design and test products and services to provide contemporary solutions

Skills SA

Skilled. Seamless. Successful.
