

Meet Cleve pharmacist Lisa Herbert

What is your qualification and experience?

I completed a Bachelor of Pharmacy at UniSA in 2007 before a year-long internship, and have practised as a pharmacist for almost 18 years, mainly at Cleve, Kimba and Cowell. I was fortunate to work part-time while raising my three boys.

I have worked under three owners - Phil Hoskin, the Noel Allen Group, and Chris Ramsey, and alongside many outstanding pharmacists and assistants - their knowledge, support and dedication has helped shape my career and reinforced the importance of teamwork in delivering quality healthcare to our communities.

Which pharmacy do you operate?

I have been the owner, operator and solo pharmacist at Cleve Pharmacy since purchasing it in 2022. I am very thankful for my excellent team, and experienced locum pharmacists who visit, to allow me to step away from the dispensary.

What is your Cleve connection?

I grew up on my family farm between Cleve and Cowell with my parents and two brothers. I loved my childhood, attending Cleve Area School and playing netball. I always knew I would end up living rurally, and after 7 years in Adelaide I returned to Cleve. Now I find any excuse for an 'Adelaide fix', but country life and rural pharmacy is for me!

What do you enjoy most about the EP?

Through travel I have realised how special our people are. Our communities are friendly and strong. We are caring and supportive, especially in times of need. Not everyone is so lucky. Also, beach days and driving our coastlines with friends, summer holidays at Arno Bay or Port Neill, or Easters at Elliston or Streaky Bay; and around my family's properties, especially the hills and creeks behind Yeldulknie Weir.

What drew you to pharmacy?

It ticked all the boxes - I enjoy science and was drawn to healthcare. I wanted a career that was needed rurally, worked closely with people to make a difference in their lives, and offered flexibility to raise a family.

What is the most rewarding part?

What I didn't realise, earlier on, was how much important work happens behind the scenes. It's these less visible aspects I have found most rewarding - helping patients navigate complex health challenges and contributing to their overall care. Feedback from a customer or another healthcare professional that a medication-related issue was identified and resolved - those moments are why I chose this profession.

What is the most challenging part?

Pharmacy is fast-paced - we often have little control over tasks arriving through the day, many services are on demand, and some can only be performed by a pharmacist. I often need to juggle multiple priorities while completing tasks accurately, safely and in a timely manner.

Workforce shortage is also a challenge. As the only pharmacist in town, it can be difficult to maintain a healthy work-life balance while ensuring the community has access to services.

What variety do you have in your work?

It is more than product supply. We assess prescriptions for safety and effectiveness, check for allergies, drug or disease interactions and appropriate dosing, and advise how to use medicines correctly. We work closely with prescribers and act as an important safety check to support the quality use of medicines.

We prepare Webster Packs, review records, and provide medications to the hospital and hostel. We deliver vaccinations, medication reviews, health

Lisa Herbert, owner and pharmacist at HealthSave Pharmacy Cleve

monitoring, harm minimisation services, and advice on health conditions. There is also stock management and ongoing education. No two days are the same!

What drives your passion for rural health?

We often face unique challenges in accessing healthcare, such as greater social isolation and barriers to support, which can impact physical and mental wellbeing. I want to help reduce these disparities and contribute to stronger, healthier, more connected communities.

How do you work with other healthcare professionals to care for patients?

I work closely with GPs, nurses, allied health, specialists, aged care providers, and community supports, to optimise medication management and address patients' broader health needs. By sharing information, providing medication expertise, and working as part of a multidisciplinary team, we ensure patients receive holistic, patient-centred care that supports their overall health and wellbeing.

What would be your one piece of advice for keeping well?

You don't have to carry life's challenges on your own. Stay connected with family, friends, neighbours, and community - reach out early for conversation, practical help, or professional support, to prevent small struggles becoming overwhelming.

More than medicine: services at Cleve Pharmacy

While we might visit them to collect a script or find an over-the-counter medicine, our local pharmacies offer a wide range of healthcare services - including some you may not be aware of.

Healthsave Cleve Pharmacy owner and pharmacist Lisa Herbert (pictured right with her team) is proud to offer a diverse range of healthcare and community services. These include:

- **Webster packs** - medicines in clearly labelled compartments for safe, easy management.
- **Simple compounding** - customising medicines (change strength, form, or ingredients).
- **MedsChecks** - private review of medications and management.
- **Blood pressure monitoring**
- **Vaccinations e.g. flu, COVID**
- **Document witnessing**

- **UTI consultations** - assessment and treatment of uncomplicated urinary tract infections without a GP appointment.
- **National Diabetes Service Scheme (NDSS) services** - subsidised diabetes products, medication advice and self-management support
- **Medical or carer certificates** for short-term illness or caring

responsibilities for work or study.

- **Medication Assisted Treatment for Opioid Dependence (MATOD)**
- **Clean Needle Program** – Access to sterile injecting equipment and safe disposal options.
- **Staged supply** – providing medicines in smaller, scheduled amounts to help with safety, adherence, or treatment plans.
- **Take Home Naloxone Program** – Free access to naloxone to reverse opioid overdose.

Not all pharmacies offer every service, so it is worth asking your local pharmacist what is available.

Streaky Bay moving well

Healthy ageing was the focus of a Walk, Move and Stay Well event on Thursday, 4 June, at the Streaky Bay Foreshore.

It included a community walk along the jetty and information sharing about falls prevention, foot health, diabetes education, strength and balance activities.

Community members also engaged with Adelaide University students who shared valuable health information and support. Six community members attended and provided very positive feedback, describing the event as enjoyable, educational and valuable. The smaller group setting allowed for personalised advice and meaningful conversations, creating strong engagement between participants, students and health professionals.

This event was facilitated by Country and Outback Health, and made possible by funding from Country SA PHN.

PATS increases from 1 July

The Patient Assistance Transport Scheme (PATS) provides financial subsidies to assist South Australian regional patients who need to travel more than 100kms each way to access necessary and approved medical specialist services that are not available locally.

Significant improvements to PATS will take effect from 1 July 2026.

The accommodation subsidy rates will increase as follows:

- Patient only subsidy: \$110 per night
- Patient with approved escort: \$154 per night
- Interstate accommodation: \$154 per night

Additional support will be available for patients accessing dialysis or oncology treatment as follows, when:

- patients receive eligible dialysis or oncology treatment three or more times per week.
- the travel distance is 50–100 km one way.
- eligible travel totals 300 km or more per week, including forward and return travel.

The fuel subsidy rate will increase for all eligible travel to 34.4 cents per kilometre. These changes are designed to reduce the financial burden on regional patients and their families when accessing essential healthcare services.

For more information about eligibility and claiming PATS: please contact pats@sa.gov.au or visit www.pats.sa.gov.au/

Fee-free uni course bridges into health-related study

A new four-week course is being offered in Port Lincoln by Adelaide University, to help prospective students build confidence and strengthen their application to study in health fields.

Health Science Ready: Anatomy and Physiology Fundamentals is hosted at Adelaide University Port Lincoln Study Centre from 13 July until 6 August, in two blocks of 2-hour workshops per week. Health Science Ready is fee-free and open to anyone interested in health pathways, including senior school students (Years 10-12). Health Science Ready provides a supportive introduction to health sciences, and is ideal for anyone interested in working in health, changing career pathways, building confidence for university study, or strengthening their understanding of anatomy and physiology. It also caters for senior high school students in Years 10, 11 and 12 interested in pursuing a Health degree.

For more info, scan this QR code or visit:

adelaide.jobreadyplus.com/apply_to_courses/78604

Bringing Health Science Ready to your community in Northern Eyre Peninsula

Adelaide University aims to expand access to higher education, including for regional and rural South Australians seeking pathways into health-related fields.

Pathways College Associate Professor Tanya Weiler would like to hear from Eyre Peninsula residents who may be interested in the courses such as Health Science Ready or Foundation Studies, if they were delivered in other locations or online.

tanya.weiler@adelaide.edu.au

Key features of Foundation Studies

- Gain essential foundational discipline knowledge and skills to set yourself up for success in your degree.
- Use Foundation Studies final grades to gain competitive entry to all Adelaide University degrees
- Flexible study options to help balance study with work, social and family commitments
- Full access to Adelaide University's support services

Interested in a face-to-face pathway to university?

Adelaide University Pathways College is now offering two programs on-site at the Port Lincoln Study Centre: Foundation Studies and the Aboriginal and Torres Strait Islander Pathway Program. If you don't have an ATAR, are returning to study, or have simply been thinking about university but don't know where to start, these fee-free programs are perfect for you to experience university level study, develop your confidence and explore future pathways. Both programs use a flexible, staged structure, with students

entering at the level that suits your background and work through only what you need to reach your goal.

Applications are open for Semester 2, starting end of July. For further information visit: Pathways College | Adelaide University or phone 8302 7407.

Resilience in focus at Lock community health event

An impressive lineup of speakers will seek to encourage community members at the next health night hosted by Lock Health and Welfare Centre Advisory Committee, on 14 July.

A leading rural mental health speaker, Warren Davies “The Unbreakable Farmer”, draws on his experience of farming, family, financial pressure, and rebuilding after significant personal and professional loss, to help others better understand their challenges, recovery and ongoing wellbeing.

He will be joined by a familiar face on the Eyre Peninsula, comedian and mental health advocate Marc Ryan “The Beautiful Bogan”, and Bron Stedall from Pinion Advisory will speak on communication under pressure, preserving relationships and managing stress.

6pm for 6.30pm start, Tuesday 14 July at Lock Clubrooms. Free entry including meal. RSVPs required by 3 July - phone 8689 1006. Please see the flyer at end of this newsletter for more information.

WANTED: Your feedback as a hospital patient

If you stay overnight at a hospital in the Eyre and Far North, you may receive a text message from the Eyre and Far North Local Health Network (EFNLHN) inviting you to complete a survey about your experience.

The survey only takes about two minutes and your feedback is confidential. The survey is anonymous, and your care will not be affected.

Your feedback helps EFNLHN improve the healthcare services it provides. To give a compliment or make a complaint and receive a response, you can:

Call the EFNLHN Consumer Feedback Officer on 0401 772 141; Use the online Consumer Feedback Form at bit.ly/EFNLHNFeedback or email Health.EFNConsumerFeedback@sa.gov.au

Staying overnight in hospital as a patient?

Your feedback helps us improve our healthcare services. If you get a text inviting you to complete a survey about your experience, please have your say.

It's quick. It's safe. It helps.

Charity supports families with multiple children

Children can be expensive, and while you may have prepared for the expense of one baby, the cost of more than one is often unexpected.

Multiple Birth SA is a registered charity committed to being an active and supportive community for families of multiples (twins, triplets or more!), and helping them to save money.

MBSA aims to help its members feel connected, supported and part of a community who understands the multiple birth journey.

Services include:

- Baby/child products and programs discounts
- Free breastfeeding pillow hire
- In person and online community and events
- Peer support from friendly volunteers and members
- Information via webinars, online forums, and monthly newsletter
- Multiple birth groups including a regional group in Port Lincoln
- Multiple birth specific antenatal sessions

Find out more at: multiplebirthsa.org.au or scan the below QR code.

LOCK MEN'S & WOMEN'S HEALTH NIGHT

HOSTED BY THE LOCK COMMUNITY HEALTH & WELFARE CENTRE ADVISORY COMMITTEE

THE UNBREAKABLE FARMER

Warren brings a deeply personal perspective shaped by lived experience in farming, family life, financial stress, and the challenge of rebuilding after significant personal and professional loss. His story reflects the realities many in rural and regional communities face, and the importance of speaking openly about it.

Through this session, Warren unpacks what it really means to navigate pressure over time, how stress can build quietly beneath the surface, and why recovery is rarely a straight line. He also explores practical ways individuals and communities can better recognise early signs of struggle, support one another, and build stronger foundations for wellbeing beyond simply "getting through it."

THE BEAUTIFUL BOGAN

Marc Ryan, The Beautiful Bogan, is a comedian and mental health advocate who's toured more than 70 shows across the Eyre Peninsula in the past five years. Blending raw honesty with big laughs, his recent shows What Would Gary Do? He has also featured on The ABC show "You Can't Ask That?" and The channel 10 show "Start Me Up" Marc's not scared of the tough topics he actually enjoys tackling them with humour and heart, making him one of Australia's most unique and powerful comedic voices.

BRON STEDALL FROM PINION ADVISORY

Bron Stedall, Pinion Advisory's People Development Consultant cuts straight to the heart of farm-life tension with a simple truth: **"Most farm conflicts aren't about the issue; they're about how the issue was communicated."** In this session, Bron unpacks the common communication mistakes that strain relationships, especially under pressure. Participants will walk away with practical stress-management strategies to stay grounded when emotions run high, along with clear, usable insights for handling arguments in ways that protect both the relationship and the outcome.
