Quick Guide

Who can access the DCR?

Who can access the DCR?	What information will be available?[1]		What information can be provided to the DCR?
	With Consent	Without Consent	
Donors	> Genetic offspring identifying information > Genetic offspring parent(s) contact details	> Genetic offspring non-identifying information: number of offspring, year born, sex.	> Medical history > Contact and notification preferences > Biographical statement, photo or video
Donor conceived people (18 and over)	> Donor-conceived sibling (over 18) identifying information > Donor-conceived sibling parent(s) contact details	> Genetic parent (donor) identifying and non-identifying information > Donor-conceived sibling non-identifying information	> Medical history > Contact and notification preferences > Biographical statement, photo or video
Parents of donor-conceived children	> Donor identifying information > Donor-conceived sibling (over 18) identifying information > Donor-conceived sibling parent(s) contact details	> Donor non-identifying information > Donor-conceived sibling non-identifying information	> Medical history of the donor-conceived child > Contact and notification preferences
Descendants of donor-conceived people[2]	> Donor-conceived aunts/uncles (siblings) identifying information	> Genetic grandparent(s) (donor) identifying and non-identifying information > Donor-conceived aunts/uncles (siblings) non-identifying information	> NA

*Identifying information

- Name
- Date of birth
- Place of birth
- Contact details
- Donor code

*Non-identifying information

- Medical history
- Year of birth
- Sex
- Number of donor-offspring (for donors)
- Number of donor-conceived siblings (for donor-conceived people)

[1] Information is only available where it can be verified. It is unlikely that all records, particularly historical records, will be full and complete.

[2] The consent provisions established by a donor-conceived person's donor-conceived siblings apply to any future direct descendants of the donor-conceived person.
